

## Reference character list

Programmable logic controller PLC  
Field devices F1, F2, F3  
Data bus D  
Gateway G  
Firm network N  
Control systems L1 (SCADA), L2 (visualization), L3 (engineering)  
Operating device B  
COM-ports COM1 and COM2  
PC-card slot PCMCIA  
HART®-modem HM  
HART®-bus H  
Memory S1  
Operating program B  
Device software program GS'  
Copy of device software program GS  
Memory S2  
Interface COM8  
Interface COM9  
Windows-Shell WH
